PROFESSIONAL SUMMARY

Java Backend Developer with hands-on internship experience in Java and backend application development. Experienced in building database-driven applications and working with REST APIs and microservices-based projects using Spring Boot. Strong foundation in Core Java, OOP, SQL, and software development, with additional experience in AI/ML projects using OpenCV.

TECHNICAL SKILLS

Programming Languages:

- Core Java: OOP, Multithreading, Collections, Exception Handling
- Java 8 Features: Streams, Lambda Expressions, Map, Filter, Optional

Back-End Development:

- Spring Boot, Spring MVC, Spring Data JPA, Spring Security, JWT, REST APIs, Microservices
- JDBC, Servlets, JSP

Database Management:

- MySQL

Front-End & Web Technologies:

- HTML5, CSS3, JavaScript

AI/ML:

- OpenCV, Visual Odometry, RAG, Vector Databases

Cloud & Development Tools:

- AWS (EC2, S3, IAM), Maven, Git, GitHub, Postman, Swagger

INTERNSHIPS

Java Full Stack Developer Intern — Dhee Coding Lab

Feb 2026 – Present

Contribute to a microservices-based application by developing REST APIs and backend modules using Java and Spring Boot, while collaborating on API design and code reviews.

AI Intern — DRDO DYSL-AI

Aug 2025 – Feb 2026

- Engineered and optimized real-time Visual Odometry pipelines using OpenCV to support AI-driven navigation systems.
- Benchmarked 5+ feature-matching techniques (ORB, SIFT, SURF, LoFTR, RoMA) against ATE/RPE metrics to identify the top-performing method for pose estimation.

PROJECTS

BookMyStay – Resort Booking Application — Java, Spring Boot, Spring Data JPA, MySQL, Spring Security, JWT

- Developed RESTful APIs for user authentication, resort management, bookings, and reviews using Spring Boot, Spring Data JPA, MySQL, and JWT-based security.
- Implemented Controller–Service–Repository architecture with Cloudinary image storage, email notifications, DTOs, and global exception handling.

Fresh Mart – Grocery Shopping Web Application — Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat

- Built a full-stack grocery shopping application with product browsing, cart management, and order placement using JSP and servlets.
- Designed the MySQL schema and JDBC data access layer, and deployed the application on Apache Tomcat.

Cloud-Hosted User Registration & Authentication System — AWS Free Tier (EC2, S3, IAM)

- Deployed a user registration and authentication system on AWS Free Tier using EC2, S3, and IAM.
- Configured IAM policies and roles to enforce least-privilege access control.

Medical Chatbot (RAG) — Python, RAG, Chroma DB (Vector Database)

- Developed a RAG chatbot grounding responses in a medical knowledge base via a Chroma DB vector store.
- Built a document retrieval and semantic search pipeline to reduce hallucinated answers.

EDUCATION

Bachelor of Engineering (B.E.), Information Science & Engineering

2022 – 2026

KNS Institute of Technology, Yelahanka

CGPA: 8.56 / 10

CERTIFICATIONS & ACHIEVEMENTS

AWS Core Services & Features — Magic Bus India Foundation (2025)

Cloud Computing — NPTEL, IIT Kharagpur (2025)

HackerRank — 3-Star Badge, Coding Challenge

HackerRank — 5-Star Badge, Java (Problem Solving)
